With student
and teacher
checklists.

ABOUT THE PRODUCT

Spelling is a subject that either comes naturally to a student or it doesn't. But no matter how easy or hard it is for a student, spelling simply takes practice.

But practice does not have to be writing a word over and over (though for some students it does help).

This packet is a year of spelling homework activities that help each type of learner. Activities range from art projects to writing to active jumping and kickboxing.

Homework is a great debate in many schools and classrooms. I personally believe that homework should not be lengthy but is important in teaching students responsibility.

This packet can be used any way a teacher chooses. Maybe you only require spelling homework two or three nights a week. This will work for you. Maybe you don't give homework but instead use it as a challenge activity. This will work for you.

Use this packet any way you see fit but know that the activities are fun and engaging for all learners.
